To Whom It May Concern,

I am pleased to offer a formal recommendation for Capital Office and Workplace Consultant Devon White. The SouthEast Alaska Regional Health Consortium (SEARHC) has had a long-standing relationship with Ms. White. Over the past five years of working together, Ms. White has helped SEARHC and designers NorthWind Architects and Ankrom Moisan develop interior standards for finishes and furniture for multiple different healthcare service areas, including most recently patient and provider housing. In working with our leadership team, Ms. White contributed expert guidance on furniture styles, fabrics, compliance issues, availability, and installation processes. I have worked with Ms. White and the Capital Office team for over multiple years and couldn't think of a better partner.

Our most recent project was to remodel the Sitka Patient Housing 18-bed facility. Ms. White contributed multiple different layouts with perspective furniture options. After narrowing down choices, the Capital Office team worked with SEARHC project managers and facilities to coordinate shipping, delivery, and installation. The project was successful and the remodeled facility meets modern requirements and style.

Feel free to contact me with any questions.

Sincerely,

Maegan Bosak
Lands Manager
